

Parish emergency plan

02 November 2024

OVERVIEW

Council is considering creating a parish emergency plan.

INFORMATION FROM OXFORDSHIRE COUNTY COUNCIL

Community emergency plans

Community emergency plans are just that. Plans developed by the local community to support residents during an emergency or unexpected event.

They don't have to be complex, and the Joint Oxfordshire Emergency Team can give support where required to advise on writing them.

If your community doesn't have a community emergency plan you can encourage your local representatives (eg parish council) to create one and there are resources available below.

Once a community emergency plan is completed please share a copy with the Joint Oxfordshire Resilience Team.

- Community Emergency Plan leaflet from OCC in papers
- Template Community Emergency Plan from OCC in papers

COUNCIL DECISIONS

- Whether to create an emergency plan for the Parish.
